HOW TO PLAY ROULETTE

 GAME RESPONSIBLY

OCTIO

IT'S **GAME** TIME

ROULETTE IS ONE OF THE OLDEST OF ALL CASINO GAMES. IT'S ALSO ONE OF THE EASIEST TO PLAY. ALL YOU REALLY NEED TO KNOW IS HOW TO PLACE YOUR BETS.

GETTING STARTED

To join the excitement of Roulette you will need to play with chips. You can buy colour chips by placing cash on the table for the Dealer to exchange and then simply place your bets.

These different coloured chips help distinguish your bets from those of the other players. Remember coloured chips purchased on a Roulette table are only valid on that particular table.

When you've finished playing just ask the Dealer to "cash out" and they will exchange your colour chips.

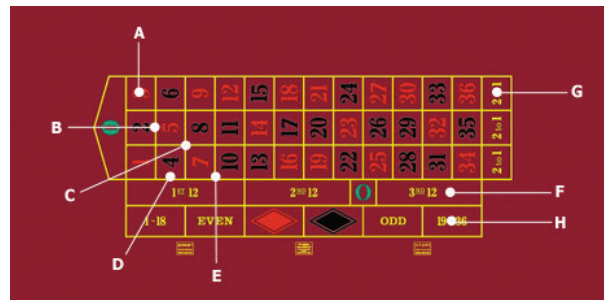

WHAT IS THE AIM OF THE GAME?

The Roulette wheel contains compartments numbered from 0 to 36. The Dealer spins the ball and whichever compartment the ball falls in wins!

The aim of the game is to guess where the ball will land.

HOW DO I PLAY?

Our Dealer will invite you to "place your bets". Simply position your chips where you choose on the table before the Dealer calls "no more bets". When the ball comes to rest, the Dealer announces the winning number and places a marker on it. They will then remove all of the losing chips and pay the winning ones.
